

The Out of Hours Service telephone number will change on 1 April 2008

Patients across West Sussex will be looked after by one Out of Hours service instead of three from 1 April 2008 following the award of the contract to Harmoni to cover the entire county.

This three year contract will mean that regardless of where a person lives in the county, the same provider will respond to a call providing a seamless service that has no district or borough boundaries.
